BUILD THE DECK OF YOUR DREAMS!

TREATED KDAT PREMIUM DECK LUMBER

What is KDAT?

Following pressure treatment, KDAT products are placed in a large oven, or kiln, where excess moisture is removed and the wood is returned to its original moisture content. This process offers a controlled environment and the wood is dried evenly, helping minimize the natural tendency of freshly treated wood to shrink, cup and warp.

Composite Decking

- Low Maintenance
- Assorted Colors
- Style Selection
- Cost-Effective
